- Guaranteed pensions that sustain a decent life for all working people.

- For workers’ right to organize and for a repeal of Taft Hartley and all anti-labor legislation.
- Funding public education in a crash program to restore our decaying and abandoned schools with state of the art school facilities in every community.
- Funding a vast army of teachers to end functional illiteracy in America and unleash the talent

and potential of our abandoned children and adults.

- Launching a national training program in skills and capacities that will enlist our people in rebuilding our country and putting an end to both the criminalization of poverty and the prison-industrial complex.
- Rebuilding our decaying inner cities with clean, modern and affordable housing and eliminating homelessness in America with guaranteed housing and jobs for all.
- Progressive taxation that increases taxation on corporations and the rich while providing relief for the working class and poor.

- Extend democracy to our economic structure so that all decisions affecting the lives of our citizens are made by working people who produce all value through their labor.
- Amnesty for all undocumented workers.
- An aggressive enforcement of all civil rights and a national education campaign and mobilization against all racist and discriminatory acts, including those based upon gender and sexual orientation, in the workplace and in our communities.
